MARKET OPPORTUNITY

The Indigenous Pacific economy is awakening and it's not a niche; it's a movement.

Across Aotearoa and the Pacific, Indigenous enterprises are emerging as dynamic leaders in sustainable trade, innovation, and cultural integrity. The Māori economy alone now exceeds \$32 billion, and similar stories of growth are unfolding across Australia, Fiji, Samoa, Tonga, and beyond.

By building a unified, culturally certified trade network, Indigenous Pacific Trading Co bridges these markets creating one powerful, interconnected economy. We begin with Māori, whose proven track record and infrastructure offer a strong base. From there, we extend through the Pacific, linking communities, brands, and suppliers who share a commitment to authenticity, respect for the land, and long-term partnership.

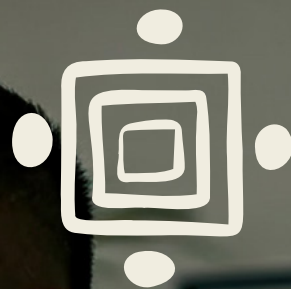

This is not just a market opportunity; it's an opportunity to shape how Indigenous excellence is seen, trusted, and traded on the world stage.

Individually we are Strong. Collectively we are unstoppable.
